

業績目録

渡辺 はま (東京大学 大学院教育学研究科)

(a) 外国語による論文・著書 (分担執筆を含む)

29. Kanemaru, N., Watanabe, H., Taga, G. * (in press). Increasing selectivity of interlimb coordination during spontaneous movements in 2- to 4-month-old infants. *Experimental Brain Research*.
- ※28. Watanabe, H. *, Homae, F., Nakano, T., Tsuzuki, D., EnkhTUR, L., Nemoto, K., Dan, I., & Taga, G. (in press). Effect of auditory input on activations in infant diverse cortical regions during audiovisual processing. *Human Brain Mapping*.
27. Homae, F. *, Watanabe, H., Nakano, T., & Taga, G. (in press). Functional development in the infant brain for auditory pitch processing. *Human Brain Mapping*.
- ※26. Watanabe, H., Forssman, L. *, Green, D., Bohlin, G., & von Hofsten, C. (2012). Attention demands influence 10- and 12-month-old infants' perseverative behavior. *Developmental Psychology*, **48**, 46-55.
25. Watanabe, H. *, Homae, F., & Taga, G. (2012). Activation and deactivation in response to visual stimulation in the occipital cortex of 6-month-old infants. *Developmental Psychobiology*, **54**, 1-15.
24. Taga, G. *, Watanabe, H., & Homae, F. (2011). Spatiotemporal properties of cortical hemodynamic response to auditory stimuli in sleeping infants revealed by multi-channel NIRS. *Philosophical Transactions of the Royal Society A*, **369**, 4495-4511.
23. Yabe, Y. *, Watanabe, H., & Taga, G. (2011). Treadmill experience alters treadmill effects on perceived visual motion. *PLoS ONE*, **6**, e21642.
- ※22. Watanabe, H. *, Homae, F., & Taga, G. (2011) Developmental emergence of self-referential and inhibition mechanisms of body movements underlying felicitous behaviors. *Journal of Experimental Psychology: Human Perception & Performance*, **37**, 1157-1173.
21. Homae, F. *, Watanabe, H., Nakano, T., & Taga, G. (2011). Large-scale networks underlying language acquisition in early infancy. *Frontiers in Psychology*, **2**, 93.

20. Watanabe, H. * & Taga, G. (2011). Initial-state dependency of learning in young infants. *Human Movement Science*, **30**, 125-142.
19. Sasai, S. * , Homae, F., Watanabe, H., & Taga, G. (2011). Frequency-specific functional connectivity in the brain during resting state revealed by NIRS. *Neuroimage*, **56**, 252-257.
18. Homae, F. * , Watanabe, H., Otobe, T., Nakano, T., Go, T., Konishi, Y., & Taga, G. (2010). Development of global cortical networks in early infancy. *Journal of Neuroscience*, **30**, 4877-4882.
- ※17. Watanabe, H. * , Homae, F., & Taga, G. (2010). General to specific development of functional activation in the cerebral cortexes of 2- to 3-month-old infants. *Neuroimage*, **50**, 1536-1544.
16. Watanabe, H. * & Taga, G. (2009). Flexibility in infant actions during arm- and leg-based learning in a mobile paradigm. *Infant Behavior and Development*, **32**, 79-90.
15. Nakano, T. * , Watanabe, H., Homae, F., & Taga, G. (2009). Prefrontal cortical involvement in young infants' analysis of novelty. *Cerebral Cortex*, **19**, 455-463.
14. Nakano, T. * , Homae, F., Watanabe, H., & Taga, G. (2008). Anticipatory cortical activation precedes auditory events in sleeping infants. *PLoS ONE*, **3**, e3912.
13. Watanabe, H. * , Homae, F., Nakano, T. & Taga, G. (2008). Functional activation in diverse regions of the developing brain of human infants. *Neuroimage*, **43**, 346-357.
12. Taga, G. * , Homae, F., & Watanabe, H. (2007). Effects of source-detector distance of near infrared spectroscopy on the measurement of the cortical hemodynamic response in infants. *Neuroimage*, **38**, 452-460.
11. Kushiro, K. * , Taga, G., & Watanabe, H. (2007). Frame of reference for visual perception in young infants during change of body position. *Experimental Brain Research*, **183**, 523-529.
10. Homae, F. * , Watanabe, H., Nakano, T., & Taga, G. (2007). Prosodic processing in the developing brain. *Neuroscience Research*, **59**, 29-39.
- ※09. Watanabe, H. * & Taga, G. (2006). General to specific development of movement patterns and memory for contingency between actions and events in young infants. *Infant Behavior and Development*, **29**, 402-422.
08. Homae, F. * , Watanabe, H., Nakano, T., Asakawa, K., & Taga, G. (2006). The right hemisphere of sleeping infant perceives sentential prosody. *Neuroscience Research*, **54**, 276-280.

07. Watanabe, H.* (2005). Semantic and episodic prediction: Planning process of memory for plans. *Japanese Psychological Research*, **47**, 40-45.
06. Watanabe, H.* & Kawaguchi, J. (2005). Representation of plans: Activation in memory. *Memory*, **13**, 174-188.
05. Watanabe, H.* & Kawaguchi, J. (2004). Is memory for plans unique?: The study using common noun stimuli. *Psychological Reports*, **95**, 477-484.
04. Watanabe, H.* (2003). Effects of encoding style, expectation of retrieval mode, and retrieval style on memory for action phrases. *Perceptual and Motor Skills*, **96**, 707-720.
03. Nakaaki, S.* , Watanabe, H., Nakamura, H., Yoshida, S., Matui, T., Kinoshita, Y., & Furukawa, T. (2002). The influence of the Stroop interference effect on an event-based prospective memory task in Alzheimer's disease patients. *Psychogeriatrics*, **2**, 120-126.
02. Watanabe, H.* & Kawaguchi, J. (2002). Planning over the day span: Memory for the content of plans. *Applied Cognitive Psychology*, **16**, 443-450.
01. Yokota, M.* , Miyanaga, K., Yonemura, K., Watanabe, H., Nagashima, K., Naito, K., Yamada, S., Arai, S., & Neufeld, R.W.J. (2000). Declining of memory functions of normal elderly persons. *Psychiatry and Clinical Neurosciences*, **54**, 217-225.

(b) 国際学会・海外学会での発表・講演等

25. Maruyama, S., Watanabe, H., & Taga, G. (2011). Spatial awareness induced by pitch direction: A study on the developmental origin of audio-visual congruence in target detection task. 15th European Conference in Developmental Psychology, Bergen, Norway.
24. Sasai, S., Homae, F., Watanabe, H., Sasaki, A., Tanabe, H., Sadato, N. & Taga, G. (2011). NIRS can detect cortical activity reflecting the fMRI-based default mode network during the resting state. 8th International Brain Research Organization (IBRO) World Congress, Florence, Italy.
23. Homae, F., Watanabe, H., Otobe, T., Nakano, T., Go, T., Konishi, Y. & Taga, G. (2011). Prosodic network in the neonate brain. 17th Annual Meeting of the Organization for Human Brain Mapping, Québec City, Canada.
22. Sasai, S., Homae, F., Watanabe, H., Sasaki, A., Tanabe, H., Sadato, N. & Taga, G. (2011). Frequency-specific functional connectivity during resting state revealed by fMRI and NIRS. 17th Annual Meeting of the Organization for Human Brain Mapping, Québec City, Canada.

21. Fujii, S., Watanabe, H., Oohashi, O., Hirashima, H., Nozaki, N., & Taga, G. (2011). Audio-motor entrainment to a musical beat in 3- to 4-month-old infants. *The Neurosciences and Music IV: Learning and Memory*, Edinburgh, U.K.
20. Homae, F., Watanabe, H., Nakano, T., & Taga, G. (2010). Hysteresis in functional networks of the infant brain. *Functional Near Infrared Spectroscopy*, Cambridge, Mass, U.S.
19. Sasai, S., Homae, F., Watanabe, H., & Taga, G. (2010). Frequency - specific functional connectivity in the brain during resting state revealed by NIRS. *Functional Near Infrared Spectroscopy*, Cambridge, Mass, U.S.
18. Sasai, S., Homae, F., Watanabe, H., & Taga, G. (2010). Frequency-specific functional connectivity in the brain during resting state revealed by NIRS. 16th Annual Meeting of the Organization for Human Brain Mapping, Barcelona, Spain.
17. Homae, F., Watanabe, H., Nakano, T., & Taga, G. (2009). Functional networks in the infant brain activated by presentation of spoken sentences. 15th Annual Meeting of the Organization for Human Brain Mapping, San Francisco, U.S.
16. Homae, F., Watanabe, H., Nakano, T., Asakawa, K., & Taga, G. (2006). Functional connectivity during auditory processing in the young infant brain: An optical topography study. The 13th Annual Cognitive Neuroscience Society (CNS) Meeting, San Francisco, U.S.
15. Watanabe, H., Taga, G., & Homae, F. (2005). Cortical activation in prefrontal and occipital areas in 3-month-olds. *ESF Research Conference on Brain Development and Cognition in Human Infants*, Acquafredda di Maratea, Italy.
14. Homae, F., Watanabe, H., Nakano, T., Asakawa, K., & Taga, G. (2005). Pitch processing in the right temporo-parietal regions of early infants: An optical topography study. The 12th Annual Cognitive Neuroscience Society (CNS) Meeting, New York, U.S.
13. Watanabe, H., Taga, G. Kushiro, K. & Asakawa, K. (2004). Effects of previous motor experience on learning for relation between infant voluntary activity and change of environment during the conjugate reinforcement mobile task. The 28th International Congress of Psychology, Beijing, China.
