

業績目録

鹿子木康弘（追手門学院大学）

a. 外国語による論文・著書（分担執筆を含む）

[23] Shinohara, A., **Kanakogi, Y.**, Okumura, Y., & Kobayashi, T. (accepted). How do children evaluate the gossip of negative gossip? *Japanese Psychological Research*.

[22] Moriguchi, Y.†, **Kanakogi, Y.** †, Okumura, Y., Shinohara, I., Itakura, S., Shimojo, S. (2019). Imaginary agents exist perceptually for children but not for adults. *Palgrave Communications*, 5, 133. († equal contribution)

[21] Okumura, Y., **Kanakogi, Y.**, Kobayashi, T., & Itakura, S. (2020). Ostension affects infant learning more than attention. *Cognition*, 195, 104082.

[20] Shinohara, A., **Kanakogi, Y.**, & Myowa, M. (2019). Strategic reputation management: Children adjust their reward distribution in accordance with an observer's mental state. *Cognitive Development*, 50, 195-204.

[19] Imafuku, M., **Kanakogi, Y.**, Butler, D., & Myowa, M. (2019). Demystifying infant vocal imitation: The roles of mouth looking and speaker's gaze. *Developmental Science*, e12825.

[18] Kenward, B., Berggren, M., Kitazaki, M., Itakura, S., & **Kanakogi, Y.** (2018). Implicit social associations for geometric shape agents more strongly influenced by visual form than by explicitly identified social actions. *Psychologia*, 61, 37-52.

※[17] Hirai, M., & **Kanakogi, Y.** (2019). Communicative hand-waving gestures facilitate object learning in preverbal infants. *Developmental Science*, 22, e12787.

[16] Tanaka, Y., **Kanakogi, Y.**, Kawasaki, M., & Myowa-Yamakoshi, M. (2018). The integration of audio-tactile information is modulated by multimodal social interaction with physical contact in infancy. *Developmental Cognitive Neuroscience*, 30, 31-40.

[15] Okumura, Y., **Kanakogi, Y.**, Kobayashi, T., & Itakura, S. (2017). Individual differences in object-processing explain the relationship between early gaze-following and later language development. *Cognition*, 116, 418-424.

※[14] **Kanakogi, Y.**, Inoue, Y., Matsuda, G., Butler, D., Hiraki, K., & Myowa-Yamakoshi, M. (2017). Preverbal infants affirm third party interventions that protect victims from aggressors. *Nature Human Behaviour*, 1, 0037.

[13] Nishimura, Y., **Kanakogi, Y.**, & Myowa-Yamakoshi, M. (2016). Infants' emotional states influence maternal behaviors during holding. *Infant Behavior and Development*, 43, 66-74.

[12] Moriguchi, Y., **Kanakogi, Y.**, Todo, N., Okumura, Y., Shinohara, I., & Itakura, S. (2016). Goal attribution toward non-human objects during infancy predicts imaginary companion status during preschool years. *Frontiers in Psychology*, 7: 221

[11] Fukuyama, H., Qin, S., **Kanakogi, Y.**, Nagai, Y., Asada, M., & Myowa-Yamakoshi, M. (2015). Infant's action skill dynamically modulates parental action demonstration in the dyadic interaction. *Developmental Science*, 18, 1006-1013.

[10] Lee, H., **Kanakogi, Y.**, & Hiraki, K. (2015). Building a responsive teacher: How temporally contingent gaze interaction influences word learning with virtual tutors. *Royal Society Open Science*, 2: 140361.

[9] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., & Itakura, S. (2013). Can infants use robot gaze for object learning? The effect of verbalization. *Interaction Studies*, 14, 351-365.

※[8] **Kanakogi, Y.**, Okumura, Y., Inoue, Y., Kitazaki, M., & Itakura, S. (2013). Rudimentary sympathy in preverbal Infants: Preference for others in distress. *PLoS ONE*, 8(6): e65292.

※[7] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., & Itakura, S. (2013). The power of human gaze on infant learning. *Cognition*, 128, 127-133.

[6] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., & Itakura, S. (2013). Infants understand the referential nature of human gaze but not robot gaze. *Journal of Experimental Child Psychology*, 116, 86-95.

[5] **Kanakogi, Y.**, Moriguchi, Y., Fu, G., Lee, K., & Itakura, S. (2012). How does executive function contribute to source monitoring in young children? *Psychologia*, 55, 194-207.

※[4] **Kanakogi, Y.**, & Itakura, S. (2011). Developmental correspondence between action prediction and motor ability in early infancy. *Nature Communications*, 2:341 doi: 10.1038/ncomms1342.

[3] Koelkebeck, K., Hirao, K., Kawada, R., Miyata, J., Saze, T., Ubukata, S., Itakura, S., **Kanakogi, Y.**, Ohrmann, P. Bauer, J., Pedersen, A., Sawamoto, N., Fukuyama, H., Takahashi, H., & Murai, T. (2011). Transcultural differences in brain activation patterns during theory of mind (ToM) task performance in Japanese and Caucasian participants. *Social Neuroscience*, 6, 615-626.

[2] **Kanakogi, Y.**, & Itakura, S. (2010). The link between perception and action in early infancy: From the viewpoint of the direct-matching hypothesis. *Japanese Psychological Research*, 52, 121-131.

[1] Moriguchi, Y., Okumura, Y., **Kanakogi, Y.**, & Itakura, S. (2010). Japanese children's difficulty with false belief understanding: Is it real or apparent? *Psychologia*, 53, 36-43.

b. 国際学会・海外学会での発表・講演等

[24] Shinohara, A., **Kanakogi, Y.**, Okumura, Y., & Kobayashi, T. (2020). Children manage their reputation with regard to gossip. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2020.

[23] Okumura, Y., **Kanakogi, Y.**, Kobayashi, T., & Itakura, S. (2020). Do ostensive cues have more impact on infants' gaze following than attentional cues? *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2020.

[22] Hirai, M., **Kanakogi, Y.**, & Ikeda, A. (2020). Observing inefficient action can induce visual preferences in 4-month-old infants. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2020.

[21] Shinohara, A., **Kanakogi, Y.**, Okumura, Y., & Kobayashi, T. (2019). Seven-year-olds (but not five-year-olds) utilize gossip to evaluate others. *Biennial Meeting of the Society for Research in Child Development*, Baltimore, USA, March, 2019.

[20] Hirai, M. & **Kanakogi, Y.** (2019). Communicative Hand-Waving gestures facilitate object learning in infancy. *Budapest CEU Conference on Cognitive*

Development, Budapest, Hungary, January, 2019.

[19] Shinohara, A., **Kanakogi, Y.**, & Myowa, M. (2018). Strategic reputation management: Children adjust their sharing behavior in accordance with an observer's mental state. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2018.

[18] Kitazaki, M., Inoue, Y., **Kanakogi, Y.**, Abdullah, A. M., Kondo, R., Nishiwaki, Y., Ismail, Z., Minami, T., Nakauchi, S., & Itakura, S. (2017). Rudimentary sympathy in children and adults: Effects of culture and community on preference for others in distress. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2017.

[17] **Kanakogi, Y.**, Inoue, Y., Matsuda, G., Butler, D., Hiraki, K., & Myowa-Yamakoshi, M. (2017). Preverbal infants affirm third party interventions aiding victims from aggressors. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2017.

[16] Okumura, Y., **Kanakogi, Y.**, Kobayashi, T., & Itakura, S. (2015). Individual differences in object processing by gaze following predict language development. *2015 Biennial Meeting of the Society for Research in Child Development (SRCD2015)*, Philadelphia, USA, March, 2015.

[15] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., & Itakura, S. (2014). Twelve-month-old infants can use robot gaze for object learning: The effect of verbalization. *XIX Biennial International Conference on Infant Studies*, Berlin, Germany, July, 2014.

[14] Moriguchi, Y., **Kanakogi, Y.**, Motoshima, Y., Shinohara, I., Okumura, Y., & Itakura, S. (2015). Early social predictors of imaginary companion in young children: longitudinal studies. *2015 Biennial Meeting of the Society for Research in Child Development (SRCD2015)*, Philadelphia, USA, March, 2015.

[13] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., & Itakura, S. (2014). Can infants use robot gaze for object learning? The effect of verbalization. *Budapest CEU Conference on Cognitive Development*, Budapest, Hungary, January, 2014.

[12] Okumura, Y., **Kanakogi, Y.**, Kanda, T., Ishiguro, H., Itakura, S. (2012). The Power of human gaze on infant learning. *International Conference on Infant*

Studies (ICIS), Minneapolis, Minnesota, USA, June, 2012.
